CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with a strong foundation in Embedded Systems, VLSI, Digital Electronics, and Python programming. Seeking an internship or entry-level opportunity where I can apply my technical knowledge, problem-solving skills, and project experience to develop innovative solutions while continuously learning and contributing to organizational success.

EDUCATION

Bachelor of Engineering (B.E.) in Electronics and Communication 2023 – 2027

KLS Vishwanath Rao Deshpande Institute of Technology (KLS VEDIT) Haliyal,

Pre-university Course(PUC) 2021 – 2023

JSS R.S. Hukkerikar Pre-University College Dharwad

TECHNICAL SKILLS

- **Core Engineering:** Analog Circuit Design, Microcontroller, IOT Designing, Embedded System, VLSI.
- **Software/Tech:** Python, Math lab, VS code, Github
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management and Leadership.

ACADEMIC PROJECTS

Color Blindness using ESP 32 Module

- Developed a real-time color detection system using ESP32-CAM to identify colors through image capture.
- Displayed the detected color name and RGB values on an OLED display and reproduced the color using an RGB Neo Pixel LED.
- Programmed and tested the system using Arduino IDE for accurate color detection.

Reducing Solar Heat by Peltier Module

- Developed a real-time solar heat reducing system to increasing efficiency of solar Panel.
- Displaying the heat generated below the solar Panel.

ADDITIONAL INFORMATION

- **Languages Known:** English, Kannada.
- **Interests:** AI trends, Semiconductor industry, Circuit simulation.
